

Keenan Kent Smith

By Jocelyn & Glen Dunn, in loving memory of their grandson

It is so unbelievable to know that darling Keenan would have turned 18 on 22nd March 2009 – Keenie as we always called him. As his Mum has said it is 16 years of missing everything that would have been part of his life. Being part of a loving family in Charters Towers, going to kindergarten, preschool, primary and high school, becoming a teenager, doing hobbies, and all the other things that a boy does growing up. Being his sister's adored younger brother, maybe following his brothers into rugby league or tennis, and being a wonderful son to his Mum and Dad.

We will always know that our family will never be complete without Keenan and we truly know what a devastating effect his passing has had on his family and also his extended family. We know that our family bonds will always keep us together as we go into the future, and we will always have Keenan as a wonderful shining light to guide us.

So very lovingly remembered and never to be forgotten by all the members of Keenan's extended family.
